

RailSystem

Fiber Termination Patch/Splice Panels

The RailSystem Fiber Termination Patch/Splice Panels are designed for use as a rack mount interconnect point where termination and connectivity of up to 144 fibers is desired. This solution allows for easy access to the front patch cords as well as the splice trays and pigtails after being pulled out. Mounted on telescopic runners to ensure the tray slides in and out with a smooth action. Standard panels are available empty for complete field configuration, half-loaded with adaptor plates for field termination and cable assembly installation, or stubbed with a factory-installed cable assembly of a user specified length. The panel also offers multiple cable entry solutions, up to 2 standard cable entry points for, loose tube, tight buffer, preterminated and steel tape armoured cable. Each panel has integrated strength member tie positions.

Features

- ✓ Accepts loose tube, distribution and pre terminated cables
- ✓ Changeable adaptor plates
- ✓ Plastic lock for fixing the tray
- ✓ Pulled-open front pulled-out tray
- ✓ Optional splice tray kit for on site conversion to patch and splice panel

Specifications

- ✓ Cold Rolled Steel or Aluminium
- ✓ Durable textured powder coat finish available in black or white
- ✓ Universal 19/21" EIA/TIA rack compatibility
- ✓ Front cable manager for patch cords
- ✓ Front side mounting
- ✓ Standard cable stub location is back side

Applications

- ✓ Telecommunications closets
- ✓ Data Centers
- ✓ Customer Premise
- ✓ LAN / WAN Networks
- ✓ Central Offices / Headends
- ✓ Hubs / Cabinets / Remote Terminals
- ✓ FTTH / FTTB Networks
